We are founded on the Vision to build technology to enable seamless financial and payment transactions and provide a comprehensive digital platform to Banks and Merchant segments.

Role: iOS Native Developer (Swift)

Experience: 0–1 Year

Work Location: Wagle Estate, Thane

Job Summary:

We are looking for a skilled and passionate iOS Native Developer with expertise in Swift to join our mobile development team. As an iOS Developer, you will be responsible for designing, developing, and maintaining high-performance mobile applications for iOS devices. You'll work closely with product managers, UI/UX designers, and backend developers to deliver seamless user experiences in a fast-paced, agile environment.

Job Responsibilities:

- 1) Build and maintain iOS applications using Swift and Xcode.
- 2) Integrate REST APIs and work with mobile databases (CoreData, SQLite).
- 3) Implement background services, notifications, and app lifecycle events.
- 4) Integrate Firebase Services (Push Notifications, Firestore, Authentication).
- 5) Maintain clean, readable, and optimized code.
- 6) Debug and test mobile applications for quality and performance.
- 7) Stay updated with best practices and new iOS technologies.
- 8) Assist in integrating analytics, crash reporting services, SDKs, frameworks or static libraries, and plugin creation.

Required Skills & Qualification:

- 1) Strong knowledge of Swift and iOS app lifecycle.
- 2) Created 1–2 iOS apps (academic, personal, or App Store published).
- 3) Understanding of REST APIs, JSON parsing, and mobile databases (CoreData, SQLite).
- 4) Familiarity with Firebase Services (Push Notifications, Firestore, Authentication).
- 5) Willingness to learn quickly and adapt.
- 6) Strong analytical and debugging abilities.
- 7) Awareness of version control (Git).
- 8) Familiarity with Flutter and mobile app security best practices.
- 9) Understanding of SDKs, frameworks, static libraries, plugin creation, and integration.
